

## **Vice President of Business Development:**

Juliet Marine Systems, Inc. has an immediate opening for a Vice President of Business Development. This position reports to the President/CEO and is responsible for leading the development of business opportunities in Navy Force Protection and Naval Special Warfare Special Boat Teams and Special Mission units for a high speed surface attack boat to combat swarm attacks and conduct/support Special Operations.

We seek to hire a business development executive with prior experience in developing new defense business market opportunities. Twelve years experience in conducting business with the US Navy and Special Operations organizations sought. Ideal candidate has experience in taking a product from an early developmental stage to field-use by DOD and into production.

Engineering background and experience with acquisition, manned or unmanned naval vessels and proposal writing a plus. Frequent travel expected.

Compensation package includes competitive salary, benefits, and substantial stock options. Please email resume and statement of interest to [info@julietmarine.com](mailto:info@julietmarine.com)
